

TVF32

Test Vehicle Fitment

MAIN FEATURES

- **Customized Test Vehicle Fitment**
- **Robust Design**
- **Easily Customizeable**

DESCRIPTION

We manufacture custom test vehicle mounting systems for most high voltage test systems. We meet with our customers to discuss their needs and design the layout according to their exact specifications. We are capable of fitting all types of test equipment to any type of vehicle, ensuring ease of use for specific customer applications.
